

PRESS RELEASE 01/08

Hockenheim, 21st of March, 2008

TEST THE „BEST OF BIKE-TUNING 2008“

From Friday 4th to Sunday 6th of April Germany's best tuning motorcycles will be presented in the course of the 6th Motodays on the racetrack of Oschersleben/Germany for the ultimate showdown of VDMT's first event called „[BEST OF BIKE-TUNING 2008](#)“. An outstanding occasion for motorcycle journalists not only to study the technique of Germany's fastest motorcycles in detail but to ride them – prior permission required - on the track as well.

At VDMT's (German Motorcycle Tuner Association) first event of this kind, they present the „crème de la crème“ of Germany's tuning trade.

In addition to the track activities there'll be an attractive exhibition of tuning and customizing parts in the pits and in the paddock as well, showing the latest news and programs of Germany's tuners and technology companies.

Furthermore, visitors and fans are invited to ride the exhibited motorcycles prior to permission, time and availability to get a

personal impression of the bikes. Journalists are kindly invited to test the bikes on the track. VDMT's services for journalists include free photographic services (action & stills & details) as well as full technical specs and information.

[Accreditations are to be sent to Herbert O. Kainzinger, President of VDMT e.V., best by e-mail h.kainzinger@vdmtev.de.](#)

You are kindly invited to join VDMT's first „BEST OF BIKE-TUNING 2008“. Entrance for visitors and fans is free.
